Certificate of no availability in european organic wine

At present, the Brewline range certifies that it does not have commercially available organic equivalents for the products listed in this certificate.

All the products of the Brewline range:

- Are not from Genetically modified organisms and do not contain a G.M.O within the meaning of part A article 2 of directive the EEC 2001/18 of the 3/12/01. They are not food products or ingredients obtained entirely or partially starting from genetically modified substrates concerned with the regulation EEC 1830/2003; this indicates the absence of cloning.
- Do not result from ionizing treatment nor of irradiations.
- Do not result from the use of the nanotechnologies except Silica Sol.
- Do not contain nor are elaborated with substrate containing sewage sludge, with petrochemical substrate or with sulfite waste liquor.

Before using, the products conformity must be validated in compliance with the certification body.
